COVID-19 Safety Plan

Offices/Administrative Areas
Effective at Step 3 of BC Restart Plan

Note: At the start of Step 4 of the BC Restart Plan, UBC will transition to a communicable disease plan.

Scope
UBC is committed to providing a healthy and safe environment. This safety plan details the COVID-19 measures and controls required for all UBC Vancouver offices and administrative areas. This plan is in alignment with Step 3 of BC’s Restart Plan and the criteria outlined by Public Health. Beyond COVID-19, this plan includes strategies to prevent the spread of communicable diseases on campus.

Rationale
The University of British Columbia envisions a climate in which students, faculty and staff are provided with the best possible conditions for learning, researching and working. Above and beyond immunizations, infectious contacts throughout the post-secondary environment can be reduced using the prevention and control measures outlined in this plan.

Engagement and Review
COVID-19 Safety Plans have been developed in collaboration with Public Health, the Ministry of Advanced Education and WorkSafeBC.

This plan has been reviewed by UBC Vancouver’s Joint Occupational Health and Safety Committees. Feedback and suggestions have been incorporated into the plan.

Regulatory Context
BC Restart Plan
Provincial Health Office Orders
Post-Secondary Go-Forward Guidelines
WorkSafeBC

Responsibility
We can all contribute personally to the pandemic response and safety of our communities by getting vaccinated (as we are able), following campus safety plans, performing a daily health check, staying home when sick, following handwashing and hygiene etiquette and following public health orders and guidelines both on and off campus.

It is up to each one of us to do our part, but it is our collective efforts that will make the difference.
UBC COVID-19 Rules

COVID-19 Campus Safety rules apply to all persons on campus. These rules confirm expectations of all members of the campus community, including:

- **Completing Daily Health Assessments** - required of everyone prior to attending campus
- **COVID-19 training** - required of employees
- **Wearing non-medical masks** - non-medical masks are recommended, in alignment with Step 3 of the BC Restart Plan, in indoor common spaces like hallways, washrooms, elevators etc. for all people 12 and older who are not yet fully vaccinated.
- **Following direction of Public Health** - as it relates to PHO Orders, contact tracing and isolation requirements

For further information and complete list of rules, visit COVID-19 Campus Safety Rules. Frequently asked questions about COVID-19 protocols at UBC can be found here.

Infection Control in Office Spaces

Although expected occupancy of office spaces is consistent with pre-COVID-19 levels, there are several controls that are being applied within these spaces in order to reduce the risk of COVID-19 transmission.

Remote Working and Return to Campus Considerations

Faculty and staff are required to follow remote working guidance of their Faculty/Department/Unit.

Return to Campus Considerations are:

<table>
<thead>
<tr>
<th>Timeline</th>
<th>Welcome Back</th>
<th>Decision Made By</th>
</tr>
</thead>
<tbody>
<tr>
<td>June 1st onwards</td>
<td>Employees (both faculty and staff) who need to report in-person to support instructional or operational planning and/or preparation for fall service model</td>
<td>Supervisor/Director/Department Head with appropriate approvals</td>
</tr>
<tr>
<td>July 1st onwards</td>
<td>Employees not included in the first group but who wish to work on campus</td>
<td>Individual decision with approval from Manager, Supervisor or Department Head/School Director</td>
</tr>
<tr>
<td>September 1st onwards</td>
<td>Employees who are required to be on campus as they provide in person teaching, research and campus services</td>
<td>Supervisor/Director/Department Head with appropriate approvals</td>
</tr>
</tbody>
</table>

Cleaning and Hygiene

UBC Building Operations will continue to clean public spaces and sanitize high touch areas daily. For further information, visit UBC Building Operations. UBC Building Operations clean offices once every two weeks. Desks and personal items are not cleaned by UBC Custodial Services. Waste must be brought to the centralized sorting stations provided on all floors of each building. Everyone is encouraged to wipe down their own work surfaces and common office equipment regularly. Circulation areas and other

Last edited: July 5, 2021
shared spaces (including but not limited to staff lounges) will resume normal use with a daily cleaning/sanitizing schedule.

Respiratory Etiquette and Hand Hygiene
Occupants are expected to practice respiratory etiquette by coughing/sneezing into their mask, a tissue or into the sleeve of their shirt. Occupants are also expected to regularly wash their hands with soap and warm water for at least 20 seconds or make use of hand sanitizer stations. Hand sanitizer stations managed by Building Operations are available in the main building entrance/foyer. Everyone is encouraged to carry their own hand sanitizer.

Signage
All occupants, including visitors, are required to follow signage in all spaces.

Managing Contacts and Limiting Close Interactions
Throughout campus, students, faculty and staff are encouraged to limit the number of close sustained contacts with others, which includes avoiding situations where individuals congregate in shared areas. Occupants are expected to not linger, wait or loiter in hallways, corridors, foyers and other spaces that are intended for travel.

Physical Barriers
Office/Administrative areas involving high contact with the public may consider the installation of barriers (e.g. plexiglass). There may be application for plexiglass already installed. Before removing or purchasing additional plexiglass, contact ready.ubc@ubc.ca for advice and recommendations.

Scheduling
Faculties/Departments/Units are required to maintain schedules of on-site faculty and staff to support Public Health contact tracing efforts.

Additional Resources and Support
To support and enhance the health and wellbeing of all faculty and staff, UBC offers a variety of health resources available to the campus community. Visit UBC Human Resources for further information.

Communication Strategy
This Safety Plan will be posted on Safety & Risk Services’ website and the UBC Safe Vancouver App. Links to the plan should be included in communication to faculty and staff.

Monitoring and Continual Improvement
Building administrators, Joint Occupational Health and Safety Committees and Local Safety Teams are encouraged to engages with workers and supervisors to monitor office/administrative areas and report unresolved concerns to ready.ubc@ubc.ca.

COVID-19 Safety Plan

Every effort is to be taken by all students, faculty and staff to promote an understanding of PHO Orders, COVID-19 Campus Rules and COVID-19 Safety Plans within the campus community. A respectful and educational approach is expected for all related interactions. Where faculty and staff are not comfortable addressing non-compliant behavior or feel that related interactions cannot be performed in a respectful manner, matters should be referred to their supervisor. Campus Security can assist as necessary. For further information and strategies, review the Respectful Engagement guidance document.

Safety Concerns
Any concerns or questions should be initially sent to your direct supervisor. If unresolved, contact your Joint Occupational Health and Safety Committee representative or ready.ubc@ubc.ca.
